LEMON TETRAROME® FAB orients this fruity, raspberry, apple accord towards apple and acidulous compared to ORANGE TETRAROME® FAB which enhances red fruits notes while bringing a juicy effect.

In version B, LEMON TETRAROME® FAB is replaced by DIPG.

In version D, LEMON TETRAROME® FAB is replaced by ORANGE TETRAROME® FAB

In this green, fig leaf accord, LEMON TETRAROME® FAB amazingly boosts the vegetal and leafy effect while making the note fresher. ORANGE TETRAROME® FAB softens the green note and makes it fruitier with a surprising grapefruit effect.

In version B, LEMON TETRAROME® FAB is replaced by DIPG.

In version D, LEMON TETRAROME® FAB is replaced by ORANGE TETRAROME® FAB

PERFUMERY USAGE

TETRAROME® is a citrus extract with low limonene content, highly concentrated in citrus oil aldehydes. Elegantly blend in composition with Essential oil, it offers an incredible long-lasting effect and pure performance.
