

WHO IS CEDRAMBER[®] ?!

CEDRYL METHYL ETHER

M.W: 236.39

VAPOR PRESSURE: 0.013 MMHG @ 25 °C

**MAKING A PURE SCENT
DOESN'T COME FROM USING
ONLY NATURALS.**

**BUT COME FROM CHOOSING
PURE-SMELLING MATERIALS
"WHATEVER NATURALS OR SYNTHETICS"
TO WORK IN SYNERGISM.**

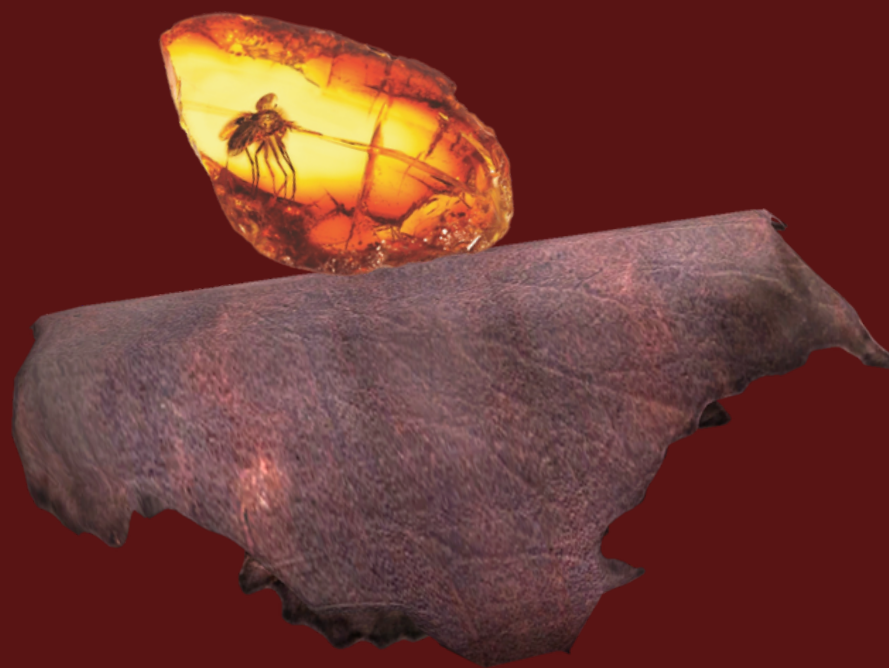

**CEDRAMBER IS ONE OF MY
FAVORITE MATERIALS.**

**I USE IT WHEN A DEEP
LUXURIOUS WOODY ASPECT
IS DESIRED.**

**I USE IT A LOT IN :
OUD,
CEDARWOOD,
AMBER,
LEATHER,
CHYPRE,
FOUGERE.**

**I NOTICED THAT ITS EFFECT
BECOMES SOFTER WHEN
THE BLEND MATURES FOR 10
DAYS AT LEAST..**

**"SO DON'T JUDGE THE EARLY
AFTER-BLENDING SMELL"**

MY AVERAGE USAGE IS 2%

I USED IN:

- **AMBERY VANILLA FINE FRAG. AT 3%**
- **CITRUSY WOODY FINE FRAG. AT 2%**
- **AMBER FOUGERE FINE FRAG. AT 14%**

WHEN YOU USE CEDRAMBER[®] ?!
