FRUCTALATE® imparts a juicy effect to the fruity note and brings incredible blooming to this floral-fruity accord.

In version B, FRUCTALATE® is replaced by DIPG.

FRUCTALATE® amazingly boosts the blooming and juicy effect, while also bringing naturality to this typical red fruit accord.

In version B, FRUCTALATE® is replaced by DIPG.

PERFUMERY USAGE

Excellent in a **fruity, pineapple** or **citrus** composition where it can be used at **high dosage**.

At **low dosage**, it enhances the overall profile of the formula and gives a real **strawberry effect**.

Very stable, **FRUCTALATE®** is the ultimate **fruity enhancer** in all type of applications, including **Home Care** applications.

A bright **fruity, raspberry apple** note which provides incredible **volume** to perfume compositions.

FRUCTALATE® shows remarkable **boosting performance, long lastingness** and **fruity lift**.

Very **stable**, FRUCTALATE® is the ultimate **fruity enhancer** in all type of applications.

Firmenich

For a Shower gel at 1%
